

# Workshop in Valencia (Spain), 10 - 11 July 2024

## WG2 "Biochemical recovery from waste"

### "Matching diverse feedstocks for biochemical recovery: impact of their quality"

#### AGENDA 10th, July

8:30h	●	Welcome and registration
9:00h	●	Ice-breaker activity
9:15h	●	<b>Presentations of Spanish projects in the scope of biochemical recovery</b>
	●	Valorization of plastic and textile waste through chemical recycling - (AIMPLAS, Spain)
	●	Valorization of agro-food waste - (AINIA, Spain)
10:00h	●	Coffee-Break
10:30h	●	<b>Pannels: Profiles of feedstocks suitable for biochemical recovery</b>
	●	"Resource recovery from food wastes" - Mohammad Taherzadeh, Professor in Bioprocess technology (University of Borås, Sweden)
	●	Food Waste Profile Suitable for Flexible Biorefinery Approach" - Gamze Nur MÜJDECI, Asst. Professor (Hitit University, Turkey)
	●	"Critical Raw Materials: The recovery of barite (BaSO <sub>4</sub> ) from industrial effluents" - Lucian Staicu, Principal investigator (University of Warsaw, Poland) - <a href="#">Online</a>
	●	"Utilization of Pyrolyzed Wind Turbine Blade Products: Emphasis on Phenol-Rich Liquids and Char as Carbon Black Alternatives" - Ecrin Ekici, PHD Researcher (Karlsruhe Institute of Technology, Germany)
12:00h	●	Lunch
13:45h	●	<b>Pannels: Feedstock qualities, impact on biochemical recovery processes</b>
	●	"Recovery of PHAs from different waste streams" - Seferhan Yilmaz, Lecturer, PhD Student (Istanbul Technical University, Turkey)
	●	"Valorization of liquid side streams from softwood bark carbonization" - Mariem Zouari, Assistant researcher (InnoRenew CoE, Slovenia)
	●	"Phenolic-Rich Pyrolytic Lignin: Isolation from Bio-oil and Application as a Feedstock for Low Sulfur Marine Fuel Production" - Ecrin Ekici, PHD Researcher (Karlsruhe Institute of Technology, Germany)
	●	"Biochemical Recovery of Agricultural Waste from Grape and Wine Production: Sustainability in Viticulture and the Wine Industry" - Selda DALER, Research Assistant (Yozgat Bozok University, Turkey) - <a href="#">Online</a>
	●	"Lignocellulosic material recovery from agro-food wastes" - Hülya Çakmak, Assoc. Prof. Dr. (Hitit University, Turkey & Universitat de Lleida, Spain)
15:30h	●	Networking

# Workshop in Valencia (Spain), 10 - 11 July 2024

## WG2 "Biochemical recovery from waste"

*"Matching diverse feedstocks for biochemical recovery:  
impact of their quality"*

### AGENDA 11th, July

8:30h	Welcome and registration
9:00h	Presentation of practical cases of biochemical recovery in Spain
	 <i>Biotechnology applied to waste valorization - (AIMPLAS, Spain)</i>
	 <i>University of Valencia, Spain - To be confirmed</i>
10:30h	Coffee-Break
11:00h	Discussion and definition of next future actions in WG2
12:00h	Guided tour AIMPLAS facilities
13:00h	Lunch

Funded by  
the European Union
